

U

This image shows a vertical strip of a document, likely a book or a bound manuscript. The left side of the strip is dominated by a dark, heavily textured area, which appears to be the inner binding or the edge of a cover. This dark area is speckled with white noise and artifacts, suggesting a high-contrast scan or a very dark, worn surface. To the right of this dark band is a lighter, vertical strip. This lighter area is also heavily degraded, showing significant vertical streaking and a grainy texture. It appears to be a page of text that has been almost entirely lost to fading or damage, leaving only a mottled, light-colored surface visible. No legible text or distinct figures can be discerned from this strip.
